

1. A Tutorial on LSA SwimMeet

Thank you for selecting LSA SwimMeet. This simple tutorial shows you how to use the program to run a swim meet. If you aren't familiar with LSA SwimMeet, you should run through this tutorial. It takes only about 30 minutes to complete and it will answer most of your startup questions by example. The tutorial will take you through all the steps of creating a meet, entering swimmers, printing out a program and entering results in just a few steps. Then you need consult the rest of the manual for only for more elaborate details: you'll be off and running.

We'll assume that you are the meet manager and entry chairman for a forthcoming meet and you don't have a lot of time to waste. So let's get going.

	<p>Step 1. Start LSA SwimMeet</p> <p>If you are running Windows 95, click on the Start button and then on Programs and look for LSA Swim Programs.</p> <p>If you are running Windows 3.1, find the <i>LSA Swim Programs 5.7</i> program group window, and double click on the icon labeled "Meet 5.7." This should bring up the main LSA SwimMeet window:</p>
	<p>Step 2. Create a Description of the meet we are running.</p>
	<p>Click on File and on Create or Edit Meet Description</p>

Set Meet Parameters

File

Select a meet using File/Open or File/New

Meet filename: a357

Meet description: [Empty]

Meet location: [Empty]

Meet date: [Current Date]

Timed Finals
 Prelims/Finals

10 and under swim timed finals
 Events > 500 yds timed finals
 One heat of distance events at finals
 Relays swim as timed finals
 One heat of relays swum at finals

OK Exit Help

This will bring up a dialog where you can define the meet you are running.

Note that you must select **File/Open** or **File/New** before working with a meet. Until you do that you won't be able to type in any of the fields. We are going to create a new meet so we will select **File/New**.

This will allow you to type in a meet filename and description.

Set Meet Parameters

File

Select a meet using File/Open or File/New

Meet filename: MyMeet

Meet description: My test meet

Meet location: Nearby

Meet date: 02-16-1997

Timed Finals
 Prelims/Finals

OK Exit Help

Type in a filename. This name must be 1-8 characters and may not contain spaces or dots. (If it is not a legal name, the program will tell you when you click OK.)

Type in any meet description you like, and any meet location you like. The meet date defaults to the current date, but you can change it to any date you like, either by typing in a date or incrementing the date a day at a time by clicking on the little up-arrow.

Select the course and whether events are timed finals or prelims/finals and click on OK.

If the filename is legal, the next screen will be shown. If not, type one in made up only of letters and numbers and try again.

Save Exit Options Help

Step 3 - Enter the Meet Events

Each event has a sex, age range, distance, stroke and cutoff times. Most of the common age ranges appear in the list box, but you can type in any other age range you like as well.

Click on **12&U, 100, Free** and click on Add Event.

	<p>Note that since Alternate sexes is checked, both a girls and a boys event was created. No cutoff times were used.</p> <p>Lets put in 3 more events, Senior 200 Free, 12&U 100 Breast and Senior 400 IM. The result should look like this:</p>
	<p>Lets put in 3 more events, Senior 200 Free, 12&U 100 Breast and Senior 400 IM. The result should look like this.</p> <p>Now lets save the meet by clicking on Save.</p>
	<p>This will bring up this dialog. Click on Yes and the meet will be saved.</p> <p>This will take you back to the <i>Set Meet Parameters</i> window. Click on Exit to close this window. Click on Yes in answer to the question, “Do you want to end Meet Definition Module?”</p>
	<p>Step 4. Select the Meet as the Current Meet</p> <p>You should now again see the main SwimMeet 5.7 window. Click on the button market “Select Meet.”</p>
	<p>This will bring up a file dialog box where you can select the mymet directory under the <code>\swim4\meets</code> directory. Double click on it to open it.</p>

	<p>Then click on the filename mymeet.mt4 in the middle box. The meet title and location should be displayed on the bars to the right. Click on OK to select the meet.</p>
	<p>Step 5. Set up your meet parameters From the main SwimMeet 5.7 menu, select Setup/Meet Parameters This will bring up the first of 3 setup boxes.</p>
	<p>In the first one, enter the title and subtitle for the heat (psych) sheets and meet results. You can always change this later so don't worry a lot about the exact wording. You can also enter the default LSC so every team will have their LSC set to this LSC unless you specifically change it. Click on OK.</p>
	<p>This will bring up the second setup panel. Be sure that you enter the number of lanes in your pool here, since it is used later in seeding. You can enter the prices for individual events and relays as well. 10 & under events are priced separately to the right. Be sure to enter the same value there as well. If there is a per swimmer surcharge, enter that in the right hand column. If your meet has prelims and finals, indicate how many final heats there are and you will be able to enter their names in the center. Enter them in the order they are swum: Bonus, Consolation, Championship.</p>

Click on OK to go on to the next screen. If your meet is scored, you enter the scoring here. For default USS scoring of 2 heats of finals, click on Default. If your meet is not scored, just click on Save.

Step 6. Set up the printer and fonts

Click on Setup/Printer. This should bring up the display on the left. To set up the fonts for your printer, click on the Fonts button.

1. Click on Header Font. Select Arial, 14 Bold.
 2. Click on Subhead Font. Select Arial 12, Bold Italic.
 3. Click on Main text font. Select Arial 10.
 4. Click on OK.
 5. Click on OK again.
- You can set up label fonts later, we won't need them now.

Step 7. Enter Teams into your meet.

Click on the button marked **Meet Entries** on the main SwimMeet menu screen. This brings up the team entry screen shown here. Select **File | New** to start a new entry. Enter the team initials. Enter the team name and address. You can use this address later to print team mailing labels. Enter the LSC name if different than the default you chose above.

Here we show a completed first screen for the well known DRIPS swim team. Click on **Edit Events**.

This brings up a screen where you can enter all the events for each swimmer.

1. Type Sammy, Tab, M, Snerd, Tab, Samuel, Tab
2. Type M to change the sex to M
3. Press Tab and Enter an age of 12
4. Press the Tab key 3 times to get to the event number entry box.
5. Type 2, Enter, 123.44, Enter

This should enter the event as the first one for this swimmer and return the cursor to the event number box to enter another. Type 6, Enter, 332.55, Enter

This will display his second event. Click on Next to go on to the next swimmer.

Enter Swimmers, Events and Times

Preferred first name: Sheila Initial: J Last name: Snurd Legal first name: DRIPS 2

Sex: F Age: 15 Birthday: Birthdate: ID Number: Attached:

Course Bonus

3	222.11	<input checked="" type="checkbox"/>	F 50m 200 Free
7	534.44	<input checked="" type="checkbox"/>	F 50m 400 IM

Buttons: Add Evt, EndSwim, Del Evt, Pick Event, Show Events, Next, Prev, Save, Cancel

Enter Sheila, Tab, Snurd, Tab, Tab, 15 and put her in Event 3 at 222.11 and Event 7 at 534.44. Then click on Save. Answer Yes to “Do you want to save this team file now.”

Team Summary

Do you want to print out the team's entries?

IBM 4039 LaserPrinter

Charge no-event swimmers as relay entrants

Buttons: Yes, Select Printer, No

If you want to print out the entries, click on Yes. Otherwise click on No.

Enter Swimmers, Events and Times

Preferred first name: Igor Initial: S Last name: Farkle Legal first name: SLOW 1

Sex: M Age: 12 Birthday: Birthdate: ID Number: Attached:

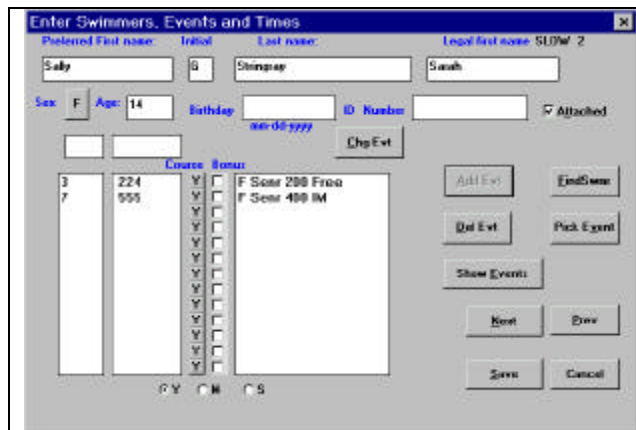

Course Bonus

2	114.33	<input checked="" type="checkbox"/>	M 12&U 100 Free
6	225.66	<input checked="" type="checkbox"/>	M 12&U 100 Breast

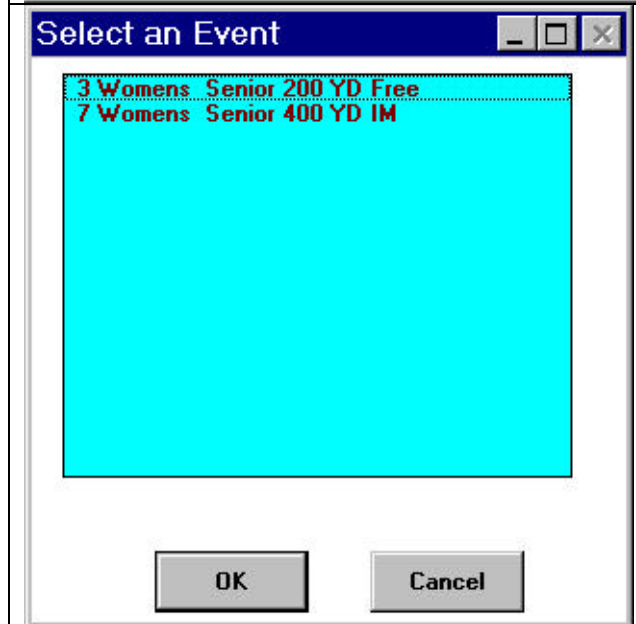

Buttons: Add Evt, EndSwim, Del Evt, Pick Event, Show Events, Next, Prev, Save, Cancel

Now let’s quickly enter two more swimmers on another team. You are now back at the main Enter Teams screen. Let’s enter another team, our own SLOW team. Put in any address information you find entertaining and then click on Edit Events

Let’s put in Igor Farkle as a 12 year old. Enter him in events 2 and 6.

and Sally Stingray as a 14 year old Enter her in events 3 and 7 If you can't remember or don't have the event numbers handy, you can click on Pick Event

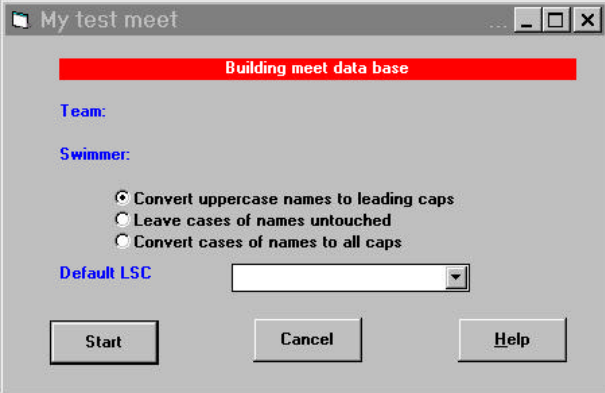

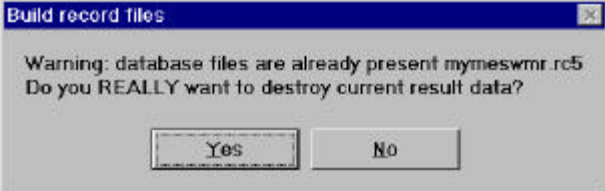

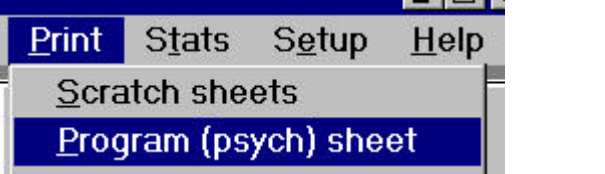

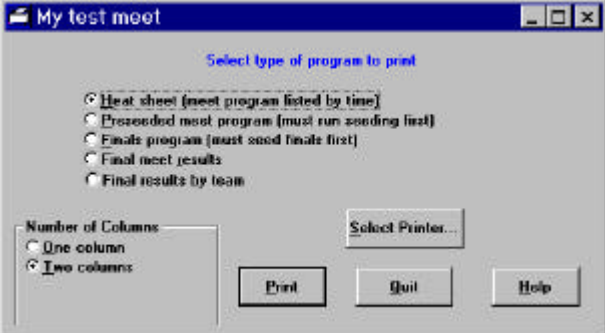

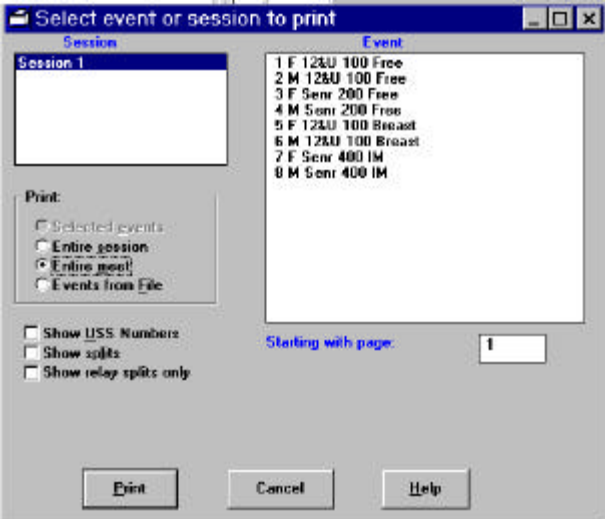

and a list of events for which that swimmer is eligible are displayed. You can select one and click on OK, or just Cancel.

Click on Save to save this team's entry as well. Click on Yes, No to printing, and Exit to exit from the team entry module.

8. Build the Meet Database
 Now we are ready to combine these separate entry files into the database we will use at the meet.
 On the main SwimMeet window, click on **File** and then **Build Meet Database**

	<p>Click on Start to begin constructing the database</p>
	<p>This warning always appears. Click on Yes to build the database. This will complete in a fraction of a second.</p>
	<p>Step 9. Print out the Heat Sheets Select Print and then Program (psych) sheet</p>
	<p>The printout module dialog will appear. Click on Heat sheet (meet program listed by time) and then on Print</p>
	<p>Click on the button Entire Meet and then on Print</p>

Get Header and Subhead for Each Page

Top header
My test meet

Subhead
Hosted by the SLOW Swim Team

OK Cancel

Since we have already defined the header and subhead banners during setup, they show up here. Click on OK to begin printing.

The resulting printout should look something like this.

My test meet
Hosted by the SLOW Swim Team Page 2

Event 12 - Boys - 12 and Under 100 YD Free
Tried Final

1	Gavin Glead	12 DRPG	1:22.44
2	Igor Fakle	12 SLOW	1:24.32

Event 13 - Women - Senior 200 YD Free
Tried Final

1	Skela Enred	15 DRPG	2:22.11
2	Sally Singay	14 SLOW	2:24.00

Event 14 - Boys - 12 and Under 100 YD Breast
Tried Final

1	Igor Fakle	12 SLOW	2:25.66
---	------------	---------	---------

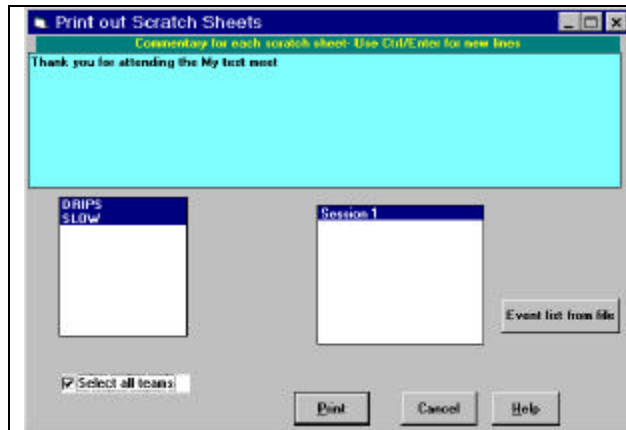

Event 17 - Women - Senior 400 YD IM
Tried Final

1	Skela Enred	15 DRPG	5:24.44
2	Sally Singay	14 SLOW	5:25.00

LEA SwimMeet 5.9

Step 10. Print out scratch sheets

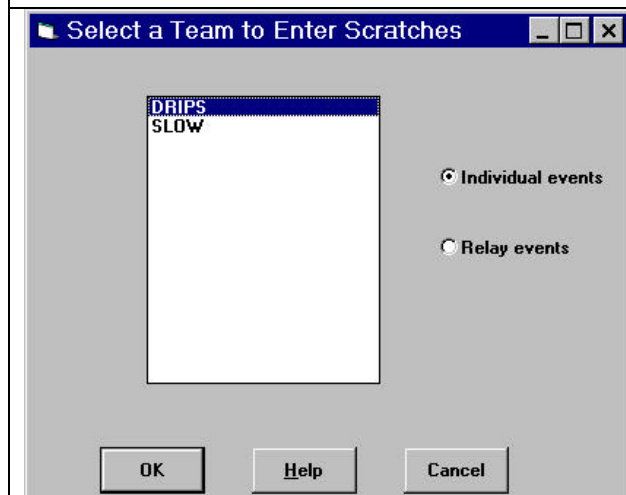

The next thing we need to do is to print out scratch sheets for each coach to submit at each session of the meet. Select **Print** and then **Scratch sheets**

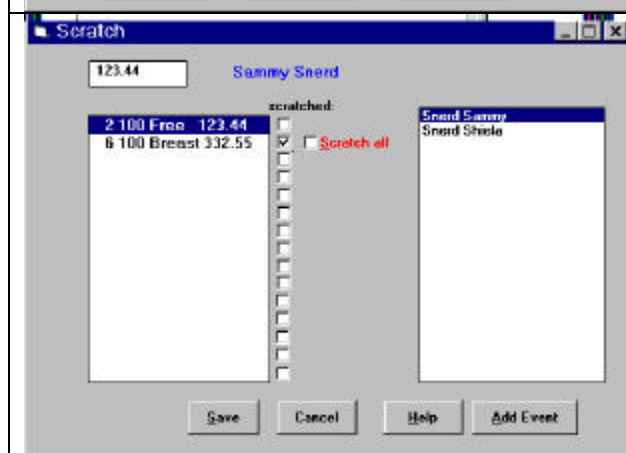

Click on **Select All Teams** and then on **Print**
The program will print out the scratch sheets for Session 1 (the whole meet) for all the entered teams (in this case 2)

Step 11. Scratching Swimmers before the meet.

About 45 minutes before the meet, you should require all coaches to turn in scratch sheets for that session even if they have no scratches. Then you know you have them call. Then to enter the scratches, select **Seeding** and then **Scratch by Team**

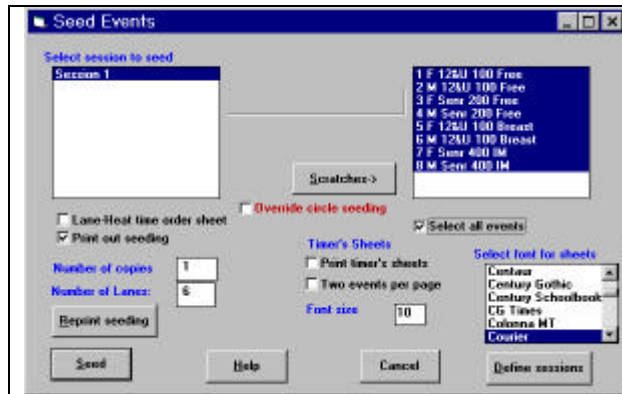

Select the DRIPS team and click on OK

You can click on any swimmer and scratch any event just by clicking on it. Click on Snerd, Sammy and on Event 6 to scratch him from the 400 IM.

Click on Save and then on Cancel

Step 12. Seeding Swimmers into Events
Click on **Seeding** and then **Seed prelims/timed finals**.

On the seeding screen, click on Session 1 and then on Seed all events.

To print out the seeding to post and give to the Starter and Referee, make sure that Print out seeding is checked. You can select how many copies you need. Click on **Seed**

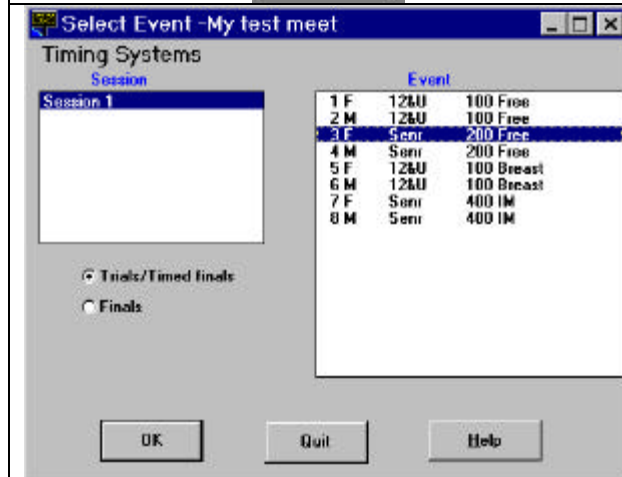

Answer **Yes** to “Ready to begin seeding?”

When seeding is completed, all events will be unhighlighted. Click on **Cancel**

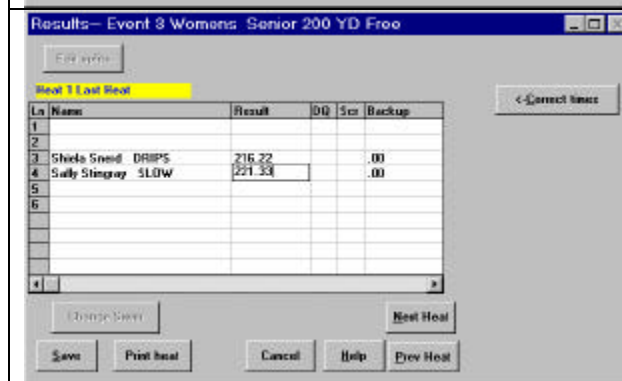

Step 13. Enter meet results

Click on the large button marked Results.

This brings up the results module. You can select any event. In this case, select event 3 and click on OK.

Using the mouse or the down-arrow key, highlight lane 3 where Sheila Snerd is swimming and type in her time, without any colon. Enter 216.22

Press the down-arrow or the Enter key to go to lane 4.

Enter 221.33

Click on **Save** (since there is only one heat)

Answer **Yes** to “Save entered times?”

Print Results

Number of copies ▲▼

Font size ▼

Print splits

Time order

Print and score by age group

Print and score by heat

Two levels of places

Click on **Print** to print out the results for posting.

Tutorial Over

Congratulations! you have created a meet, entered teams, printed heat sheets and scratch sheets, scratched swimmers and entered results. Once you have entered times for all events, you can print out final results just as you printed out the heat sheets.

Relays

Our simple example didn't cover relays. You can enter all the relay events for a team on just a few screens, because age and sex checking is ignored for relays. So, if there were two teams called "Drips A" in two different age groups, you just create one entry where the first name is "Drips" and the last name is "A" and enter the relay event numbers for the two age groups, along with seed times if available. You don't enter specific individual swimmers in relays in advance. Relay events allow you to select the relay names at the meet itself.

Enter Swimmers, Events and Times

Y M S

Now you are ready to run real meets. There are more options than we have covered in the simple tutorial, described in the remainder of the book. You can look them up as necessary as you begin to work on entering your swim meet. Good luck and thanks again for selecting LSA SwimMeet.
